

ART 2 GT THEME WORKSHEET

your name:

your class period:

THIS SIDE must be completed and turned in by
Tuesday, September 8. (The brainstorming sheet
on the other side of this paper is OPTIONAL.)

1. What is your theme?

2. Tell me more - be as specific as possible. These questions MAY or MAY NOT be relevant: what is some information that will help me understand your theme? what interests you about this theme? why did you choose it? what challenges do you think you may run into?

3. What do you propose that you will make or do to explore your theme? (This may change as you go forward - but I want to know what your thoughts are now!)

This is open-ended and up to you. You may consider both traditional forms of response (painting, drawing, sculpture, book-making, etc) as well as non-traditional or new forms of response (performance, video, sound, interactive art, etc.) Please let me know how I can help you with your ideas or support you in your process!

Consider: depth of exploration - this project should represent a quarter's worth of work; materials - what do you want to use? is it something you have already used?
