1. Who is your Master Photographer?
2. Why did you choose this person?
3. Explain what you feel your Master Photographer was trying to do both formally (compositionally) and conceptually (the meaning of idea behind the photos).
4. How are your photographs recognizable as being inspired by your Master Photographer? (Composition, subject matter, lighting, point of view, etc.) Be as specific as possible!
5. What specifically do you feel works well in your prints? Justify and explain why you feel your print “works” in that way, and how it helps the overall concept and composition. (i.e. contrast, values, composition, concept, presentation, etc.)
6. What do you feel could have been improved upon? (i.e. contrast, values, composition, concept, presentation, etc.) How do you think you could have accomplished this?
7. What other photographic knowledge from earlier assignments did you use here?
