# From Exploratorium & an interview:

works in many different media: photo, video, sculpture, sound, and public art  
various media—including photography, sculpture, video and sound  
“pick the right tools for the right job” -  
if I have an idea, the question is,  
“What’s the best medium for this idea to manifest [itself in]?”  
humor, maps, systems, public spaces  
phenomena.  
“pay attention”  
& “take your curiosity seriously”
